Right now it's ORN001002909. I'll find it tomorrow if we need to change it.

We've already given this site a new EPA ID via CERCLIS, but I'll find out if it can (or should) be changed to the RCRA number.

Hey Lynne,

I just found that the USCG has already obtained a RCRA Site ID number for the site, #ORQ000027762. They also have a CERCLA Project Number (CPN) issued by the USCG National Pollution Funds Center (NPFC), who, through an IAG with EPA, distributes Superfund funds to USCG units.
